

### **Students Enrolled in AP Calculus:**

1. You must create a free account (or use an existing one) on KhanAcademy.org. You must join our AP Class using the join code: **EDHP4CQC**
2. You must complete Units 1-7 of the *"Get Ready for AP Calculus"* Curriculum on Khan Academy before the first day of class to class (Units 8 and 9 are for BC Calc).
3. You must complete the summer work packet to be turned in the first day of class

### **Students Enrolled in AP Statistics:**

1. You must create a free account (or use an existing one) on KhanAcademy.org You must join our AP Class using the join code **2BMBQKDK**
2. You must complete the entirety of the *"Get Ready for AP Statistics"* Curriculum on Khan Academy before returning to class.

You will be assessed on this content within the first few days of your return. Make sure you are doing the assignments with an emphasis on *comprehension*. Completion is a necessary but secondary goal.

This should be review, if you are having to teach yourself new topics and ideas, please reach out to me during the summer.

Best of Luck,

Mr. Emery
